

ATTENTION: LOGO NEEDED :)

Trevian Soup is an interview-based radio program that goes beyond the academic profundity of New Trier Township High School. It instead targets the acutely diverse abilities, ideologies, and passions of the students and faculty. Debatably the most precise representation of such values is the uncountable variety of clubs. Conversations will delve into the underlying significance of such groups and why they have come to be the way they are. A faculty spotlight series partnered with news and upcoming events will precede and follow the central focus on the student body. Everyone is welcome!

Desired characteristics:

- large enough to put on a standard sheet of printer paper (8.1'' x 11'')
- bright colors (yellows, reds, oranges, etc.) that are not New Trier colors
- thicker and outlined letters, rigid but “fun” enough to be original and not look like a generic newspaper
- various “charm-like” symbols of New Trier inside the bowl of soup (the idea is that our school is a mix of many different “ingredients” that come together to form something “delicious”)
- perhaps a border with a cool shape but one that does not draw focus from the written information
- the exact time of the broadcast will be determined within the next few days; please leave a space open for that to be added in

THANK YOU !!!!!!!!
