

# New Trier Career Services

---

*“What will you choose as a college major?”*

*“What will you choose as a career?”*

Young adults often have many false starts and frustrations before they arrive at satisfactory answers to those questions. New Trier Career Services exists to provide students greater insight into the possibilities that exist for their future beyond New Trier. Students will have access to multiple services during the year, including personal counseling, guest speakers, mock interviews, resume-writing seminars, panel discussions, job shadowing, and career fairs. Our goal is to provide students with access to information that will help them shape their college and career choices.

**PARENTS:** New Trier is seeking your assistance! We are asking for parent volunteers to share their professional and educational experiences here at New Trier and/or at your workplace. Your insight, both professional and academic, is one of the most valuable resources we can provide to our students. When we partner with our talented community/parents, we can further demonstrate the connection between academics and the working world. Together we can help students make better, more educated decisions about their futures.

If you are interested in volunteering, please complete the attached *Data Form* and indicate how you would like to help. Note that completing this form is not a commitment – it merely indicates your interest.

Thank you in advance for your willingness to share your professional experience!

Melissa Duffy & Steve Belford,  
Career Service Coordinators
