OPERATIONAL SERVICES

TRANSPORTATION

The Board of Education may enter into contracts for one, two or three years for student transportation. The Superintendent or Assistant Superintendent for Business shall be responsible for administering and supervising the transportation contract and delivery of transportation services. The cost of student transportation for a majority of school activities shall be borne by the District. The cost of transporting students to and from school shall be borne by the parents/guardians. Free transportation services for special education students shall be provided if included in a student's individualized educational program. If the costs produce an undue hardship upon the student or family, the District shall arrange free transportation for the student to and from school.
