OPERATIONAL SERVICES

FACILITIES MANAGEMENT

The Board of Education recognizes that an effective educational program requires clean, healthful, safe, professional and attractive physical facilities.

The Director of Physical Plant Services is responsible to Assistant Superintendent for Business for the administration, maintenance and operation of the school plants, including all land and buildings used for school purposes, buildings under construction or remodeling, playgrounds, athletic fields, warehouses, maintenance shops, storage areas and fixtures, facilities, furniture, equipment and appurtenances thereto. The maintenance and custodial staff is charged with caring for and protecting these facilities. To carry out an efficient maintenance program, the Physical Plant Services staff must receive the cooperation of students, teachers and the Principal.

All existing school facilities will be evaluated periodically for their educational and functional efficiency. The evaluation shall include legal and safety requirements, as well as spatial, thermal, visual, acoustic and aesthetic needs for achieving the desired educational program.
