INSTRUCTION GOALS AND OBJECTIVES

Goals for Learning

The Board of Education gives priority to providing the resources required to create an exemplary educational program through which students learn in areas necessary to their continuing development. The Superintendent and staff shall develop, maintain and implement a plan which complies with State requirements for delineating appropriate learning objectives, establishing goals for excellence, and assessing student progress toward those goals. The District will report publicly about its objectives, assessment results, expectations for student achievement, and plans for improvement.

The Board of Education, Administration, faculty, staff, parents and community are committed to designing an educational program consistent with New Trier's Mission, Statement of Philosophy, Beliefs, and the Strategic Planning Objectives listed below:

OBJECTIVES: The following statements are commitments of the District to achieve specific, measurable results:

- The New Trier community will continue to support academic performance at the highest levels consistent with our tradition of excellence.
- All students will explore their individual aspirations, talents, and interests and set meaningful goals so they can confidently pursue their dreams.
- All students will demonstrate that they are making meaningful connections among their high school learning experiences: academic, social, and personal.
- All students will consistently demonstrate ethical conduct and global citizenship.
- All students will make choices that will promote a healthy, balanced life.
