

The Max Schewitz Foundation needs approximately 75 volunteers on Wednesday, October 3rd to help run Screens for Teens, our cardiac screening program at New Trier High School – Freshmen Campus.

Screens for Teens relies on parents as the primary labor source. Parent volunteers are used perform a small component of the EKG tests or to assist with student registration and processing. You do not need prior experience. You will be trained and supervised by medical staff. Believe it or not, it is easy and fun!

Parent training takes place on Tuesday, October 2nd from 5:30 - 7:00 pm. Attendance at training is mandatory, however, several administrative positions are available for each shift where training is not required.

If you have any questions, please contact *YOUR NAMES* or Kathy Aykroid at Kathy@maxschewitzfoundation.org or 847-736-8140.
