

New Trier Health Services Welcomes Class of 2021

Students starting school September 2017: Documentation of a current physical (done within 12 months of first day of school) and evidence of state mandated immunizations are required. Students will be allowed to start classes only if documents have been submitted to Health Services.

Students attending summer school classes and summer sports programs: Documentation of current physical (done within 12 months of first day of summer school) and evidence of immunizations are due before starting summer classes. This will also meet fall school entry requirement.

School year athletes trying out for a fall, winter, or spring sport: Please refer to information provided by Athletics for additional health forms requiring doctor and parent signatures.

Health Exam Form Due Dates

May 12, 2017	Physical exam and immunization records are due for summer school students.
June 12, 2017	Summer school students must have physical and immunizations on file to start classes.
August 7, 2017	Physical exam and immunization records are due for school entry September 2017.
September 7, 2017	All students must have physical and immunizations on file to start classes.

State of Illinois Certificate of Child Health Exam form: Parent must complete student health history and physician must document physical exam and immunizations. Please note any health conditions, disabilities and medications taken on a regular basis.

Medication Authorization form : Any medications administered or carried at school require both **physician** and **parent** signatures, including over the counter medications. Students may carry Epinephrine, Benadryl, and Insulin with a signed Medication Authorization form on file. Generic Tylenol, Advil, and Benadryl are stocked in Health Services and can be administered with this written consent.

Forms can be mailed, faxed or emailed to either campus. Please keep a copy for your records. Contact Health Services at either campus with questions or concerns.
