

New Trier Health Services Welcomes Class of 2022

Students starting school August 2018: Documentation of a current health exam (done within 12 months of first day of school) and evidence of state mandated immunizations are required. Students will be allowed to start classes only if documents have been submitted to Health Services.

Students attending summer school classes and summer sports programs: Documentation of current health exam (done within 12 months of first day of summer school) and evidence of immunizations are requested before starting summer classes.

School year athletes trying out for a fall, winter, or spring sport: Please refer to information provided by Athletics for additional health forms requiring doctor and parent signatures.

Health Forms Due Dates

May 15	Health exam and immunization record due for students attending summer school.
August 1	Health exam and immunization record due for school entry August 2018.
August 22	Health exam and immunization record due prior to starting classes.
October 15	Exclusion day for students not in compliance.

Forms also available at:

<http://www.newtrier.k12.il.us/HealthServices/>

State of IL Certificate of Child Health Exam Form: Required exam to be completed by physician and parent. Please note any health conditions, disabilities and medications taken on a regular basis.

Medication Authorization Form: Any medications administered or carried at school require both **medical provider** and **parent** signatures, including over-the-counter medications. Students may carry Epinephrine, Benadryl, insulin, and inhalers with a signed medication authorization form on file. Generic Tylenol, Advil, and Benadryl are stocked in Health Services and can be administered with this written consent.

Forms can be mailed, faxed or emailed to either campus. Please keep a copy for your records. Contact Health Services at either campus with questions or concerns.
