About WBA Buddy Baseball

Wilmette Baseball Association Buddy Baseball is a program targeted for children ages 7 to 19 with various learning and/or physical disabilities. The program is open to all residents throughout New Trier Township. The program began in September, 2016.

Each player will be paired with one or more Buddy volunteers to play baseball in a fun and safe environment. Buddies will be comprised of students in 7th-12th grade.

All games will take place at West Park in Wilmette. The park features a recently renovated turf infield and outfield, making it one of Wilmette's most accessible parks. Games will be 2-3 innings, approximately 60-90 minutes, depending on how many children are playing. Fundamentals instruction is being offered before the game. Each player will bat in an inning. All children hit the ball either after it is pitched to them or with the help of a tee. We use an 11' soft-stitched baseball. No strikes are called, no outs maintained, and no score is kept. In the field, the Buddies will help assist the players. This is a wonderful and meaningful experience for all that participate.

IN ORDER TO HAVE A BUDDY, YOU NEED TO BE A BUDDY!!!
