

# Parent Academy Workshops 2018 - 2019

Parent Academy is educational programming created by the NSSED Association of Parents and Staff in collaboration with its member school districts parent leadership groups. The Academy's purpose is to provide parents professional learning that empowers them to be active, collaborative, and engaged members of their child's educational team and school community.

Parent Academy workshops are single sessions that provide information on a single topic and include strategies for parents to use at home. Workshop presenters are experts from various aspects of the educational and medical fields, and cover a very broad array of topics in the educational and disability arenas. As often as possible, individuals providing professional development in the NSSED member districts will be invited to provide a parent workshop to align the parent and educators learning.

Monday, October 1, 2018
